SUMMARY

B.Tech Computer Science & Engineering student at KL University (CGPA: 8.89/10) with hands-on experience in full-stack development, AI/ML systems, and DevOps pipelines. Proficient in **Java**, **Python**, **JavaScript**, with practical project experience using **Spring Boot**, **React.js**, **FastAPI**, **MySQL**, **Docker**, and **Kubernetes**. Built and deployed real-time deep learning systems and scalable REST API backends.

EDUCATION

- 2023 – 2027 **B.Tech in Computer Science and Engineering at Koneru Lakshmaiah Education Foundation (K.L. University)**, Guntur (CGPA: 8.89/10)
Specializing in Deep Learning and Full-Stack Development. Proficient in Python, Java, with certified expertise from NVIDIA and HackerRank. Experienced in team collaboration and developing software solutions; eager to apply algorithmic knowledge to real-world problems.
- 2021 – 2023 **Intermediate (Class XII) at Sri Tirumala College**, Visakhapatnam (80.3%)
- 2010 – 2021 **SSC (Class X) at Sri Chaitanya School**, Visakhapatnam (99.5%)

EXPERIENCE

- Technical Team Member** — Kognitiv Club, KL University *Aug 2024 – Present*
- Assisted in organizing and supporting technical sessions/workshops on AI/ML and cloud computing (AWS) for club members.
 - Contributed to club blogs/articles and built small React.js components integrated with REST APIs.

PROJECTS

- Voice-Based Inventory Management** <https://github.com/2300033794/Voice-Based-Inventory.git>
- Built a bilingual **voice-first inventory and billing system** supporting multi-language for small retail businesses.
 - Developed **React**, **Node.js**, **Express**, and **MongoDB** features for voice-based stock updates, billing, low-stock alerts, and real-time inventory management.
- Research Journal Management System** <https://github.com/2300033794/Research-journal-management>
- Built a full-stack manuscript management system using **Spring Boot**, **React.js**, and **MySQL**, with **RBAC** for authors, reviewers, and editors.
 - Designed **RESTful APIs** for manuscript submission, peer-review, and status tracking, with an optimised database schema to reduce redundancy.

TECHNICAL SKILLS

- | | |
|------------|--|
| Languages | Python, JAVA, SQL |
| Frameworks | Spring Boot, React.js, FastAPI, REST APIs |
| AI / ML | YOLOv8, Deep Learning, Neural Networks |
| Databases | MySQL, PostgreSQL |
| DevOps | Docker, Kubernetes, Ansible, Git, GitHub Actions |
| Core CS | OOP, Operating Systems, DBMS |

CERTIFICATIONS

- Fundamentals of Deep Learning** NVIDIA — Training techniques, model optimisation, neural network architectures
- Python for Data Science & AI** IBM — Data analysis, visualisation (Pandas, NumPy), AI fundamentals
